

○ Mallard  
*Anas platyrhynchos*  
“quack, quack, quack”

# Birds of Sertoma Park

Whether perching in the trees, wading in the shallows, flying overhead, or singing from the shrubs, many types of birds specialize in a life on or near the water. Use this brochure to see how many birds you can find on your hike today.

## Field Marks

In addition to size, shape, location and behavior, field marks can be used to help identify birds. If you can't identify a bird on your hike, remembering what certain parts of the bird looked like can help you identify it when you get home. On your birding adventure, try to find a bird you don't know and see if it has any of the following field marks:

● **wing bars**  
Does the bird have wing bars or patches?

● **nape**  
Is the bird's nape a different color?

● **crown**  
Does the bird have a colored "cap" or a crest on its head?

● **eyebrow**  
Does the bird have an eyebrow? What color?

● **eyestripe**  
Does the bird have a stripe through the eye?

● **tail bars**

Are there any stripes across the bird's tail?

○ Blue Jay

*Cyanocitta cristata*  
loud "jady, jady" or "jeer, jeer"

● **beak or bill**  
What shape and color are the beak?

● **tail markings**

Does the bird have white edges on its tail or a different color on the tip?

● **belly**  
What color is the bird's belly?

● **side**  
Does the bird have coloring on the sides?

● **breast**  
Does the breast have speckles or bands of color?

● **throat**  
Is the bird's throat a different color?

# What kind of bird is that?

When identifying birds, start by observing their location and behavior. Is the bird up high, making noise? Or is it on the ground, digging in leaves? Next, observe its appearance. Is it big like a crow, or small like a sparrow? Does it have pointy wings, or a long tail? What color is it? And what sort of markings does it have? These things can help you identify the birds you are looking at!

Check off the birds you find on your hike today!

○ **Red-tailed Hawk**  
*Buteo jamaicensis*  
hoarse, screaming “kee-eeee-arr”

○ **Bald Eagle**  
*Haliaeetus leucocephalus*  
series of high-pitched whistling or piping notes

○ **Downy Woodpecker**  
*Dryobates pubescens*  
excited string of “pik, pik, pik”

○ **Red-winged Blackbird**  
*Agelaius phoeniceus*  
trilling “conk-la-ree”

○ **Eastern Towhee**  
*Pipilo erythrophthalmus*  
“drink-your-teaaa”

○ **Black-capped Chickadee**  
*Poecile atricapillus*  
“chickadee-dee-dee”

○ **American Goldfinch**  
*Spinus tristis*  
quiet “po-ta-to-chip”

○ **Rose-breasted Grosbeak**  
*Pheucticus ludovicianus*  
sweet, melodious whistle similar to a robin

○ **Wild Turkey**  
*Meleagris gallopavo*  
“gobble, gobble, gobble”

○ **Turkey Vulture**  
*Cathartes aura*  
low, guttural hiss

○ **American Robin**  
*Turdus migratorius*  
clear whistles like “cheerily, cheer up, cheer up, cheerily, cheer up”
