

CRAZY FOR CLOUDS

CLOUDS ARE FUN TO LOOK AT
BUT THEY CAN ALSO TELL US A
LOT ABOUT THE WEATHER.

CIRRUS - High, wispy clouds. If
you can see these in a blue sky,
it means good weather.

CUMULUS - Tall fluffy clouds.
White cumulus in a blue sky
means good weather. Dark tall
cumulus can mean storms.

STRATUS - Low, flat blanket
clouds. Can cover entire sky
and can bring drizzling rain.
