

Kids in Parks provides a network of kid-friendly hiking adventures for families to enjoy!

Snake Sleuth

Snakes are often misunderstood and feared, but they are actually fascinating animals. Before you look for snakes, find out which snakes live in your area, and if any are **venomous** (poisonous).

! Snakes can bite!
Keep a safe distance!

A quick and easy way to tell if a snake is venomous is to look at the shape of the head.

Triangle head = Venomous

not venomous

venomous
