

Kids in Parks TRACKtivity: Field Marks

Field marks can help you identify a species of bird or other animal. Find a spot to sit quietly, and keep an eye out for any birds near you. When you find a bird, use the diagram below and take notes on the different types of markings you may see. Use your notes alongside a bird guide to identify the bird you're observing.

Tail: _____

Wing: _____

Nape: _____

Crown: _____

Beak: _____

Side: _____

Throat: _____

Belly: _____

Breast: _____

Eyebrow: _____
