

# Spook-tober

Some animals give people a Fright. But if you look closer you may find that they are not scary at all!

**Can you see any of these spooky animals on your hike?**

## ■ Bats

Many people think of vampires when they see a bat. The truth is, bats are one of our best allies in controlling bugs. While we sleep, one bat can eat up to 8,000 insects per night.

## ■ Spiders

While some spiders are dangerous, most avoid people. They prefer to hunt or trap insects. In fact, they are a big help in controlling pests like mosquitoes, roaches, flies, and moths.

On your next hike, play a game of 'SPOOK'. It's like BINGO except you're trying find these sights, sounds, and smells to spell 'SPOOK'.

S	P	O	O	K
Bat	Worm	Toad	Bones	Moon
Spider Web	Moth	Crow	Clouds	Hole in a Tree
Fog	Something Orange	<b>FREE</b>	Crooked Tree	Howl Sound
Owl Hoot	Brown Leaves	Bug with over ten legs	Snapping twig sound	Snake
Dead Tree	Something stinky	Creaking Sound	Bat	Spider
