# Nature's Hide & Seek

Sshhhhh!  
I'm hiding from TRACK.

I can't find KIP.  
She always hides so good.  
Can you help me?

Oh, there she is.  
You're a good helper.

Now, let's find some other things hiding in nature. Finding things in nature is fun. Just remember that all things in nature have a special place. Make sure you leave them here, so others can find them too.

Evergreen tree

Many things in nature go unseen.  
Their size, color and location often  
cause us not to notice them.

Bird

Spider web

Rock with lichen

Wildflower

Animal track

Insect

On your walk today, see  
if you can find some of  
these things.

Chipmunk
