

Singletary Lake State Park's TRACK Trail

The Singletary Lake State Park TRACK Trail follows the Singletary Lake Trail.

This easy 1 mile loop features a pier over the lake and interpretive panels describing the unique Carolina Bay ecosystem and theories of the lake's origins.

Have fun as you travel the trail, exploring the park and discovering its wonders!

NOTE: Ticks are common in the park. Please stay on the trail. Bug spray is recommended in the warmern months
